

# AEROSOL SPRAYS RECALLED BY F.D.A.

29 More Brands Containing  
Vinyl Chloride Affected—  
Possible Peril Cited

WASHINGTON, April 17 (AP)—The Food and Drug Administration has announced the recall of 29 more brands of aerosol products containing vinyl chloride.

The chemical, used as a propellant in aerosol sprays, has been associated with at least 10 cases of a rare form of liver cancer among industrial workers.

The agency said yesterday that all the recalled products were produced before last July 1 by the Shield Chemical Company of Canton, Mass., and were distributed by other companies. The recalled products can be identified by code numbers in sequential order up to 3213.

The products include medicated vaporizers, athlete's foot sprays, hair sprays and wig spray and cleaner.

Earlier, the agency ordered the recall of 22 brands of consumer and professional hair sprays manufactured by Clairol, Inc., and Bonat, Inc., because they also contained vinyl chloride.
